Therapy Outcome Measures

30 June 2009 • Glasgow

A Practical Workshop
in its use, application
and development

Presented by
Professor Pam Enderby
MBE, DSc, PhD, MSc, FCSLT

Delegates receive a free copy of 'Therapy Outcome Measures for Rehabilitation Professionals, 2nd Edition'

Therapy Outcome Measures

Venue Western Infirmary Lecture Theatre, Glasgow
Registration 09:00am Workshop closes: 16:00pm

About the Presenter

Pam Enderby is currently Professor of Community Rehabilitation at University of Sheffield and Clinical Director of the South Yorkshire Comprehensive Local Research Network. She is a qualified Speech and Language Therapist who has focused on research combined with clinical practice throughout her career. She has also been awarded a PhD (having studied assessment processes of dysarthria) and Fellowship of the College of Speech Therapists. She was also honoured with an MBE for services to speech and language therapy and awarded a Doctor of Science by the University of the West of England.

She has been chair of the Royal College of Speech and Language Therapists and served on many College committees over 20 years. She has been President of the Community Rehabilitation Team Network since its inception, served as the President of the Society for Research in Rehabilitation and was given life membership to the British Society of Rehabilitation Medicine in recognition of her contribution. She has assisted the Department of Health in policy and strategy development.

Pam has been lead supervisor for 25 successful doctoral students, principal investigator on 40 research projects, principal author of 14 books and has published more than a hundred peer-reviewed journal articles.

Audience

Anyone involved in therapy/interventions.

About the Workshop

The workshop will provide participants with tools to collect and measure outcomes data on clients receiving treatments. This will include their own copy of Pam Enderby's manual *'Therapy Outcome Measures for Rehabilitation Professionals: Speech and Language Therapy, Physiotherapy, Occupational Therapy, 2nd Edition'* (see below).

The day will include both theoretical and practical components.

Learning Outcomes

At the conclusion of the workshop, each participant should:

- Be able to use the International Classification of Functioning
- Know what to look for when choosing an outcome measure
- Understand the principles, practicalities and necessity of using outcome measures
- Know how to improve their clinical practice using benchmarking
- Be a confident user of the Therapy Outcome Measure.

Therapy Outcome Measures for Rehabilitation Professionals

Speech and Language Therapy, Physiotherapy, Occupational Therapy, 2nd Edn

Previously published as two separate books for Speech and Language Therapists and for Physiotherapists, Occupational Therapists and Rehabilitation Nursing, this book has now been updated and expanded and combines the first two editions into one. This fits in with the increased amount of team working in rehabilitation, in both hospital and community settings. The book assists with the practical implementation of gathering outcome data on patient/clients receiving treatment.

Participants of the workshop will receive their own copy.
